

Carousel Day School

*Educating Students from
Early Childhood – Elementary Grades*

*Since 1956,
we've been serving area
families by providing a
safe and fun environment
where children can
encounter an invaluable
learning experience.
Carousel is a year-round
facility committed to the
ideal that each child shall
grow and become his or
her best self. We believe in
personally knowing every
child as an individual
and building confidence
and self-esteem through
the support of Carousel's
professionals. Love of
learning, self-respect,
kindness, individual
creativity, new experiences,
all these and more are
part of the Carousel
philosophy*

*Where lifelong
learning begins.*

Carousel Day School was chartered by the New York State Department of Education and Board of Regents in 1956. At Carousel we believe that each student is endowed with their own individual capacities and characteristics. Knowing each student personally enables Carousel to provide the kind of education best suited for their distinct needs.

Our objectives include a well-rounded program which encompasses the social and academic skills necessary for a lifetime of continuous learning and adaptation. We believe that certain criteria are essential to obtain these objectives, one very important factor being, having FUN. The results have always proven to be positive. Exercising their minds by allowing them to be creative, providing meaningful challenges and accomplishments. Carousel's highest priority is to ensure that students are prepared with a foundation for a lifetime of learning!

Staff

Carousel teachers love teaching. In small classes, they are able to form close and enduring relationships with their students and provide individual attention and support. Their primary goal is to educate children to be curious, respectful, responsible and caring.

Facilities

All of our classrooms are spacious, air conditioned and equipped with an intercom system and toilet facilities. Each classroom is equipped with their own computer, so that every student receives individual instruction.

At Carousel Day School we feel that children are never too young to acquire a true love of reading. Carousel's library develops a whole theme on reading readiness throughout the school. During library the students not only have the opportunity to hear a special story, they may select a book to take home.

Early Childhood

This is where it all begins. Carousel is a child's introduction to formal education, providing a positive experience and setting the stage for a lifetime love of learning. Carousel Day School is a happy and active place. The curriculum is developmentally appropriate and supports children's growth socially, emotionally, intellectually and physically. The children experience many different situations that help them grow into compassionate and caring individuals.

Academics

Parents tell us how much they appreciate the loving and nurturing atmosphere that prevails. Carousel clearly recognizes the importance of early childhood education in establishing how children see themselves. Included in Carousel's curriculum are concepts touching upon all academic, cultural and physical aspects, providing a well-rounded program. Guided by their teachers, students are allowed to mature at their own pace, finding challenge—and success—in a variety of classroom venues such as science, writing, math or dramatic play.

Cultural Arts

The arts teach young people how to learn by giving them the first step: the desire to learn. At Carousel, children are exposed to the masters and are encouraged to develop their own artistic style after learning the basic art concepts and techniques. This plays a vital role in fostering achievement and growth throughout their lives.

Language

Children are introduced to Spanish through visual, auditory aids and music. Ole'!

Science

The children will explore areas in Life, Physical and Earth Sciences. Hands on experiments as well as encouraging the children to work independently and to communicate their experiences and observations are our goal.

Music

Young children are drawn to the drama and excitement and happy to discover that music is everywhere. Studies have shown that classical music has a powerful effect on the creative development of children: to inspire thinking, improve concentration and memory, increase verbal, emotional and spatial intelligence as well as induce relaxation. Classical music stimulates the intellectual development of a child's mind.

Physical Education

Prepare to run, jump and skip. Physical Education will provide the children with the principals and concepts for learning and developing their motor skills. As a result children will maintain a health-enhancing level of fitness.

Carousel Day School

Where lifelong learning begins...

Field trips

Field trips provide children with many varied experiences within and outside the community. Community service and civic responsibility activities are integrated into the life of the school. Children actively participate in food drives, clothing drives as well as fundraising activities for charitable organizations such as the March of Dimes and American Cancer Society.

Transportation

Carousel Day School owns and operates 100% of our vehicles. There is no shifting of this very important responsibility! We personally oversee all aspects of routing, vehicle maintenance and driver training. Our top priority is SAFETY!

We take pride in our impeccable safety record and take great steps to provide a very efficient transportation operation. All students are transported door to door.

All of our vehicles are air conditioned, two-way radio equipped and maintained to the highest standards. Carousel Day School has received awards of excellence for continually exceeding vehicle maintenance from the New York State Department of Transportation.

*Transporting your children ... **Safety First!***
